Malta at a glance

With a robust legal and regulatory system, a highly professional workforce, EU membership and Eurozone location, Malta has become a favourite hub for the financial industry and the structuring of assets, welcoming business from around the world. The country offers a competitive tax system and an entity registered in Malta may take advantage of the extensive network of double taxation treaties.

Mandaris has a vast experience in the structuring of assets through the use of companies, trusts, foundations, investment funds and securitisation and has specialised in cross-border situations. Incorporating a company in Malta is fairly simple as the registration process can take as little as 48 hours. Mandaris can also assist with the re-domiciliation of companies and investment funds to Malta.

Malta offers a number of residency programmes that have some attractive incentives for many expats, not only HNWI's. Mandaris' experienced professionals can assist with all questions on residency and citizenship.
